

Bornholm Mustard

from Den Bornholmske Sennepsfabrik ApS, Aakirkeby

Although the mustard factory “Den Bornholmske Sennepsfabrik” was founded only in 2007, the founders have many years of experience with the production of mustard.

The ingredients of the mustard products from Den Bornholmske Sennepsfabrik include mustard seeds and beer from Bornholm.

The mustard factory’s basic product is a classic Bornholm mustard made for the palates of the people of Bornholm: medium hot, sweet and slightly fluid.

Bornholm Mustard is ideal wherever mustard is preferred: with sausages, cheeses and as sandwich spread as well as in sauces, glazes and dressings.

The “Kofoed” line was developed for quality-conscious consumers and is available in different varieties to suit almost every taste. The variety containing dill and Bornholm rapeseed oil is a popular condiment for smoked salmon and marinated salmon (*gravad lax*).
