

## Organic Crispy Rye Crackers with black pepper and chives

Bornholm Rye Crackers were introduced onto the market in 1924 by the present master baker's grandfather and have over the years grown into a solid success.

An organic variant is also available. This has a very different profile – also when it comes to package design. Meet “Crispy Rye Crackers with black pepper”.

The Bornholm Crispy Rye Crackers with black pepper are based on the original recipe; made with rye and of 27 thin layers in every single cracker.

The Crispy Rye Cracker contains no added sugar and has been flavoured with black pepper, chives and sea salt.

The result is a taste and consistency, not only unique, but also a tasty addition to the family in master baker Dam's selection of quality crackers.

Crispy Bornholm Rye Crackers with black pepper and chives are ideal for Nordic tapas, brunch or cheese platters.
